

APPENDIX U

ERRATA

The following is a list of changes that should be made in the text of the Draft RMP/EIS.

SUMMARY

Alternative B, Page v

In the third full paragraph on page v, the word habitat is misspelled.

CHAPTER 3

Visual Resources, Page 67

Add the following paragraph to the end of the discussion on visual resources:

Scenic quality classes are considered along with visual sensitivity ratings, distance zones, and special area requirements in assigning public lands to visual resource management classes that then determine the different degrees of modification allowed to the landscape. The Headwaters Resource Area presently has no land assigned to Management Class I (see Chapter 2, Visual Resources, for definition of Management Classes). Approximately 10% of the resource area is within Management Class 2, including Holter and Canyon Ferry Lakes, the Yellowstone River corridor, portions of the Missouri River, the Devil's Kitchen area, and the Rocky Mountain Front. The remainder of the resource area consists of Management Class 3 and 4 lands.

Cultural Resources, Archeological Resources, Page 67

Add the following paragraph after the second paragraph of the Archeological Resources section:

High rated sites refer to National Register sites that have extremely high research or interpretative values or more typically, National Register sites that are actively threatened by man-caused or natural erosion disturbance. Moderate rated sites include those sites that appear to be of National Register value but that are not threatened. Low rated sites are those having little potential for inclusion on the National Register.

Wilderness Opportunities, Opportunities in Montana, Page 70

The first sentence of the section entitled Opportunities in Montana should read:

Montana contains 3,172,339 acres in fourteen designated wilderness areas, **1,928,709** acres in **forty-nine** presidentially endorsed areas, and 1,664,627 acres in sixty-one further study units.

Regional Wilderness Opportunities, Page 72

On the map, the areas shown in dark gray and an "S" are the Administratively Endorsed as Suitable areas. The areas shown in medium gray and a "U" are the Designated Wilderness areas.

Description of Individual Areas, Blind Horse Creek, Page 75

At the end of the second paragraph in the Blind Horse Creek section the phrase "its ability to be managed in an unimpaired condition" should be deleted and the following added:

because it is of sufficient size to make practicable its preservation and use in an unimpaired condition.

Range Resources, Page 86

In the last sentence of the first paragraph of the Range Resources section the word livestock has been misspelled.

Range Resources, Page 88

In the first paragraph on page 88, the second full sentence should be changed to read:

A substantial portion of the acreage in these allotments (21%) is unclassified.

In the third paragraph on page 88, the second sentence should read:

Most allotments are comprised of intermingled **national forest**, state, private, and public land.

Fish and Wildlife Habitat, Riparian Habitat, Page 89

The first sentence of the second paragraph of the section on riparian habitat should read:

Furbearers, including beaver, muskrat, mink, and otter; **reptiles and** amphibians, such as the rubber boa, garter snake, spotted frog, wood frog, and northern long-toed salamander; and large mammals, such as mule deer, white-tailed deer, moose, elk, black bear, grizzly bear, coyote, and wolf, utilize riparian habitat.

In the first paragraph on page 91 of this section the scientific name for the red dogwood *Cornus stolonifera* is misspelled.

Terrestrial Wildlife, Grizzly Bear, Page 93

The first full sentence on page 93 should read:

As shown in Figure 3-3, **15,410 acres (71.8%) of the 21,470 acres** of grizzly bear habitat on public land are rated **good to excellent (satisfactory)**; **the remaining 6,060 acres are rated** poor to fair (unsatisfactory).

CHAPTER 4

Impacts on Visual Resources, Page 133

Delete the sentence making up the Impacts on Visual Resources section and add the following sentence:

Impacts to visual resources would be essentially the same as those described under Alternative A except for the Sleeping Giant area, which would remain in Management Classes 3 and 4 and thus could be subject to more visual impairments than under Alternative A.

Figure 4-3, Page 135

The columns describing Vegetative Condition should be labeled from left to right: Excellent, Good, Fair, Poor.

Table 4-10, Page 136

At the end of Table 4-10 the information under the "Long-term riparian habitat cond. on I Allot. for Alternative B should read 61.75 satisfactory miles instead of 54.4; 89% satisfactory instead of 78%; 7.95 unsatisfactory miles instead of 15.3; and 11% unsatisfactory instead of 22%.

Impacts on Visual Resources, Page 141

Delete the sentence making up the Visual Resources section and substitute the following:

Impacts to visual resources would be essentially the same as those described under Alternative A except for the areas recommended for wilderness designation, which would be elevated to Management Class 1 and thus would receive complete protection for visual resources.

Impacts on Range Resources, Page-143

The second sentence of the first paragraph on page 143 should read:

While the projection for an additional 1% of the acreage to be in poor condition when compared with the present may seem contradictory, it is **explained by** the fact that Alternative C strives to achieve wildlife, watershed, and vegetative conditions simultaneously.

Table 4-12, Page 144

In the first line of Table 4-12, the percent of satisfactory elk winter and spring habitat under current conditions should read 77 rather than 776.

Moose, Page 147

In the first sentence of the section entitled Moose, the 50% should be changed to 40%.

Impacts on Visual Resources, Page 149

Delete the sentence that makes up the section on visual resources and substitute the following:

Impacts to visual resources would be essentially the same as those described under Alternative A except for the Sleeping Giant area, which would remain in Management Classes 3 and 4 and thus could be subject to more visual impairment than under Alternative A.

APPENDIX L

Summary of Wilderness Quality, Pages 268-9

The last sentence in the Summary of Wilderness Quality section should be deleted.

Table L-6, Page 280

In Table L-6, the seasons of use for the Sun River allotment is 7/1 to 8/31 instead of to 9/30.

Only a portion of the Sun River allotment lies within the Deep Creek/Battle Creek area.

Social and Economic Conditions, Public Comment, Page 281

The first sentence of the Public Comment section should read:

The majority of comments favored **further study** for this unit.

Energy and Minerals, Page 282

The second sentence of the first paragraph of the Energy and Mineral section should read:

The **stratigraphic** section in the WSA is a typical one for southwest Montana, ranging from the Precambrian Greyson shale through the **Permian** Phosphoria.

Alternative B: No Action, Page 290

In the last sentence of the first paragraph in the Alternative B: No Action section, 1,130 acres and should be changed to 920 acres.

APPENDIX P

Table P-2, Page 302

In Table P-2, the total value of cull cows should read 11,466.90 rather than 1,466.90.

Table P-3, Page 303

In Table P-3, the total value of cull cows should read 23,303.70 rather than 2,330.37.

GLOSSARY

Crucial Habitat, Page 316

The following sentence should be added to the end of the definition for crucial habitat:

Crucial habitat may be limiting to the population size of a species.
